

INTEGRATED CYBER SERIES

SMALL MOTORIZED SCREEN

The **INTEGRATED CYBER SERIES** is the perfect motorized screen option for anyone desiring a sleek and reliable design with a high-quality, practical operating system. The tensioned screen surface is smooth and renders a flawless image. Utilizing a floating bracket system and an aluminum alloy structure, the small screen is designed to withstand the wear and tear of regular use. Its durability and its quiet operating system make it a great fit for small commercial applications.

Applications include: conference rooms, media rooms, home theaters, museums, educational and worship facilities.
