

PREMIUM HGA

SILVER SCREENS

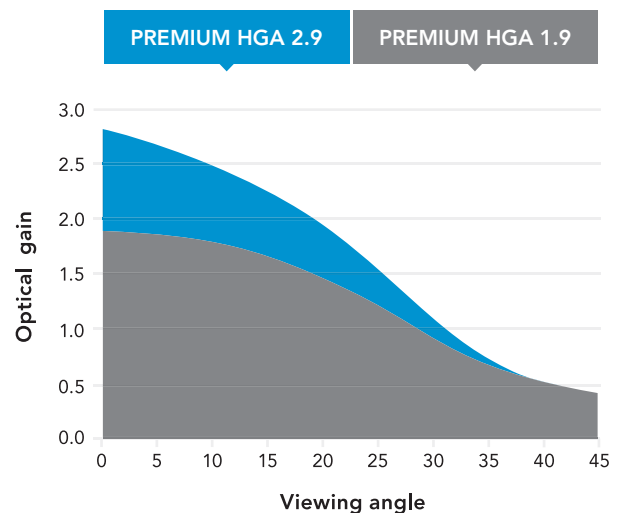

PREMIUM HGA screens offer the most generous viewing angles of any 3D silver screens with comparable gain in both high and low gain. The durable coating increases brightness and clarity across the entire screen surface and renders sharp, vivid images.

The screen is offered with 2.9 gain/25° half gain angle for giant screens requiring maximum brightness or with 1.9 gain/30° half gain angle for smaller screens or venues looking to optimize viewing angle.

Outstanding viewing characteristics in both 2D and 3D.

TECHNICAL SPECIFICATIONS	
Gain	2.9: 25°HGA / 1.9: 30°HGA (+/- 5% on-axis)
Signal to noise ratio	200+ / 180+
Perforation options	Non-perforated, Standard (4,5% void) and Micro (8,5% void)
Surface	Textured PVC with High Gain Coating
Material width	54" – 1.37 m
Thickness	Approx. 15.5 mil – 0.39 mm
Weight	Approx. 0.1 lb/ft ² – 488 g/m ² (with standard perforation)
Fire retardancy	NFPA-701. <i>Please contact us for additional certification requirements.</i>
Edging	PVC grommets every 9 inches center to center. Pipe pockets, velcro, snaps and other edging options available upon request.
Packaging	Rolled on a cardboard tube and inserted into a highly resistant carton or box.
