

STRONGVIEW & STRONGVIEW L

MOTORIZED SCREENS

Standard Format: 13' – 1" (4m) to 18' – 6" (5.6m) image width

Large Format: 18' – 7" (5.7m) to 25' (7.62m) image width

Custom designed and fabricated motorized screen.

Featuring an elegant design and a silent operation system using a heavy duty tubular motor. Nylon side tab tensioners ensure a smooth, wrinkle free projection screen. Available with most of our perforated or non-perforated surfaces.

FEATURES

- ▶ UL/cUL approved, ½ HP tubular motor, 120V - 5amp
- ▶ Separate control box with wireless module
- ▶ Truss dimensions:
Standard format
Height: 14" Depth: 10-3/4"
(35.5cm x 27.3cm)
Large format
Height: 14" Depth: 12"
(35.5cm x 30.48cm)
- ▶ 1/8" (3.2 mm) thick mat black aluminum composite panel with polyethylene core (add 1/8" (3.2mm) to truss height and 1/4" (6.35mm) to truss depth)
- ▶ Rigid 1" x 1" (25.4mm x 25.4mm) steel tubing head truss assembly
- ▶ Nylon side tension tab cable
- ▶ Up to 1:1 format ratio
- ▶ Custom black PVC masking borders
- ▶ Handheld RF wireless remote control included (2)
- ▶ Low voltage control trigger (Down/Stop/Up) on terminal strip
- ▶ 1 x 120V male 'U'-ground connector
- ▶ Standard 2 year warranty

OPTIONS

- ▶ 220V – 240V operation
- ▶ CUL/CSA twist lock male connector (to be specified)
- ▶ Adaptable rigging hardware (to be specified)
- ▶ Perforated, non-perforated front or rear projection surfaces (non-coated)
- ▶ Extended 3 year warranty
