

ECLIPSE Nomad Solid Immersive Screen System

Factory-Built for Savings. Engineered to Impress.

_ Smart by Design

- Factory-painted with premium performance coating
- No additional finishing or painting needed on site
- Fire-resistant and durable screen surface
- Self-supporting, no ground anchoring needed
- High-performance visual quality
- Modular panels with near-invisible magnetic seams
- Infinitely reusable and field-repairable
- Install it yourself or turnkey options

Lower Install Costs. Faster Setup.
Same Incredible Performance.

Why choose the **ECLIPSE Nomad?**

This solid spherical projection system is built at our factory for fast delivery and self-installation - saving you time, labor, and budget while ensuring stunning immersive visuals.

_ Precision Tech

- Maximum projection height: 15 ft (4.57 m)
- Modular panels with vertical magnetic seams
- Installation template provided for precise assembly
- Available options:
 - Ground-tie system
 - Acoustic perforation (Lyra Panels)
 - Black finish for non-reflective exposed structure
