

DOMINO

SCREEN SUPPORT SYSTEM

The Domino frame system is a versatile screen support solution. The system can be suspended, self-supported, wall mounted or attached to any structure. The sturdy steel design is safe, easy to install and can easily be moved when not in use. Ideal solution for theatres, live venues and broadcast applications. Available with any **Strong | MDI** front or rear projection screen surface.

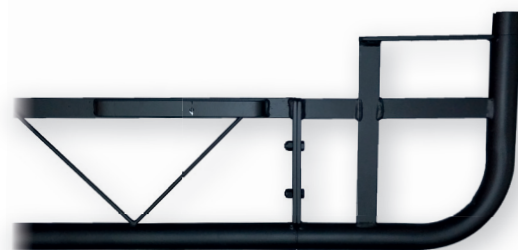

Applications include: Theatres, live venues, educational, worship facilities, broadcast and rental/touring systems
