

# POLIVIEW RECESSED TAB-TENSION

## SMALL MOTORIZED SCREEN

The **Poliview Recessed** tensioned motorized screen is designed for concealed installation in multi-purpose rooms. The patented casing technology and premium tubular motor deliver whisper-quiet operation.

The Poliview's built-in tension knob and tension tabs ensure a smooth surface even after years of regular use. Welded black borders and cinema-grade material provide a superior quality finish that blends into any professional setting.

*Applications include: conference rooms, media rooms, training sites, museums, educational and worship facilities.*
